

# About our Process

**Design/Build makes** the remodeling process smoother. The outdated model of homeowners managing designers, architects, specialty contractors and product vendors from a number of different companies often complicated a home remodeling project. Conflict and miscommunication often result from this outdated model. Our integrated design/build team works on your project from first draft, through design concept, to final construction. You have a single point of contact. Our team delivers Award Winning design, quality craftsmanship, and a predictable, easy to follow process.

**Leading the way** for innovation in the area. In addition to popularizing the Design/Build process, we are also leaders in Green Building and Universal Design, also known as Aging in Place. We are proud to be among the first in our area to introduce these new elements and techniques to our clients. As a matter of fact, we were recently awarded the Remodeling's 50+ Housing Award for one of our Aging in Place Remodeling Projects.

**Our customers are happy** they chose us. Morris Builders customers return to us again and again for their next remodeling projects. And most of our work comes from referrals. As we all know, word of mouth advertising is invaluable. Here's what some of our customers have to say:

“A remodel is often times more difficult than new construction because of the parameters already in place... Kirk and Joy Morris, and their professional staff, has been committed, conscientious and caring throughout two major remodels in our home in the past two years. Their attention to detail was exceptional. Also was their willingness to work with us when we knew what we wanted, and their experienced suggestions were helpful when we didn't. Morris Builders will help you make your home as unique as you are.”

-Ted & Gabriele
